

Stream Crossing Boot Camp

Lake Perez Parking Lot, Shavers Creek, Huntingdon County

July 21 and 28 or 29, 2020

After the success of the two held last year, we are planning on a Stream Crossing Boot Camp for late July this year. This Boot Camp is for Conservation District staff and will cover a wide variety of topics related to stream crossing replacements through the DGLVR Program. We have had to make some modifications to traditional three-day class/field format to maximize safety, namely **it will be a hybrid of remote “class time” and a single full day of field visits. Please see details below:**

- **Audience:** CD staff replacing stream Xings through the DGLVR Program
- **Class Topics:** A wide variety of topics from policy, to planning, to implementation of DGLVR stream Xing projects will be covered.
- **Field Topics:** The “main event” will be the active installation of a 11’ bottomless arch pipe on precast concrete footers. We will also visit other previously completed projects, potential projects, and conduct some basic stream surveying exercises.
- **Capacity:** Size is limited to 20 attendees, 10 each day for the field day (split because of travel logistics due to virus, you must attend the 7/21 remote training and you must attend one field day).
- **Format and Schedule:** This will be a “hybrid” boot camp, with remote classes and one full day in the field.
 - **Tue 7/21:** (9-12:30) ~3-4 hour live training via Zoom for 20 attendees - intro
 - **Tue 7/28:** in-person full day (9-4) in field in Shavers Creek area for 10 attendees
 - **Wed 7/29:** in-person full day (9-4) in field in Shavers Creek area for other 10 attendees
 - **Thr 7/30:** in-person if needed – reserved as a rain date for either field day
 - **Tue 8/11:** (9-11:30) ~2-3 hour live training via Zoom for 20 attendees – follow-up, more details, demo project update, closeout Not mandatory.
- **Registration:** Registration will be available soon at:
<https://www.dirtandgravel.psu.edu/education-and-training/stream-crossing-boot-camp>

Space is limited for the Boot Camp, so please register early. As always, feel free to contact the Center with questions.
